### Fresh Hues from the Sea and Night Sky

As Described by Justin Pate

### Gloss Metallic Milky Way

"It reminded me of looking up at the stars on a cool, moonless night... Perfect for a full wrap or accenting the roof."

### Gloss Metallic Meteorite

"A crisp shade of gray with sparkles. Smooth style with some sizzle."

### Pearl Black

"It has a mysterious depth to it, which immediately brought to mind the monolith from one of my favorite movies, 2001: A Space Odyssey."

### Pearl Bahama Blue

"I love how the hue of the Blue Pearl shifts from different angles, just like the ocean on a sunny day."

Gloss Metallic Milky Way

Gloss Metallic Milky Way

"The heavy metallic flake of Milky Way adds so much depth to the color and it's wonderful to use, of course, like all other Avery Dennison SWF900 films,"
